-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Claims 9 and 10 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 27 October 2005.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

3. Claims 1-4 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Oxenrider et al (U.S. Patent 3,899,563 A) in combination with Frey et al ("Fibres by Dry Spinning Processes") for the reasons of record.

Response to Arguments

4. Applicant's arguments filed on 17 October 2006 have been fully considered but they are not persuasive.

Art Unit: 1732

5. While Oxenrider et al does teach a melt spinning process (particularly in the examples), Oxenrider et al is not limited to a melt spinning process principally because Oxenrider et al teaches that one of the possible fiber-forming resins that can be used is polyacrylonitrile, which is formed into fibers by solution spinning (dry or wet spinning) as taught by Frey et al. Oxenrider et al teaches the use of polyacrylonitrile, but does not explicitly teach forming polyacrylonitrile into fibers by solution (or dry) spinning, which is taught by Frey et al and it would have been obvious to one of ordinary skill in the art at the time the invention was made to combine the disclosures of Oxenrider et al and Frey et al principally in order to make textile fibers from polymers comprising polyacrylonitrile. Any other advantages (e.g., orientation, migration) would be expected from following these prior art teachings.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened

Art Unit: 1732

statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
